Operational Risk Management Framework

Three Lines

Meridian Trust & Co. uses the three lines model. Business units are the first line, Risk Management and Compliance are the second line, and Internal Audit is the third line.

Incident Reporting

Operational risk incidents with a loss of 10,000 USD or more must be reported in the Risk Event Register within 2 business days. Incidents with a loss of 1 million USD or more must be escalated to the Chief Risk Officer within 24 hours.

RCSA

Each business unit completes a Risk and Control Self-Assessment (RCSA) annually.
